Testimonials

Christian Drejoe

CEO, Augrin Software ApS

"I've worked with Nisha for over 10 years. She combines strong technical skills with something rarer: the ability to actually understand what the customer needs and deliver it without fuss. Whether building housing systems or AI automation, she's dependable, easy to work with, and always goes the extra mile"

July, 2026, Christian was Nisha's client at Aplica.

Erica Frederiksen

International Housing Consultant at Boligfonden DTU

"Nisha is highly professional and capable. Her technical skills are excellent, but it's especially fortunate when one finds an IT partner that can also communicate with users on a user level. She's effective, dependable and pleasant to work with."

August, 2015, Erica was Nisha's client at Aplica.

- CEO

KnowGo Ltd

Feb 2012 – Oct 2012

 - Co-managed the ERP system alongside the other director, overseeing critical monthly tasks, including PAYE and NPS compliance.
 - Collaborated closely with the accountant, bank, lessor and employees to handle general company matters efficiently.
 - Led the development team by assigning tasks and organizing Scrum meetings to streamline the creation of a unique workflow product.
 - Engaged with existing and prospective clients in Denmark.

- Project Manager

KnowGo Ltd

Jun 2010 – Jan 2012

 - Developed software that can generate web solutions from workflow rules.
 - Built design, runtime and admin web services.
 - Added custom user controls such as NemID for authentication.
 - Maintained infrastructure and deployments.

- Software Developer

Swteams Ltd

Dec 2006 – Jul 2010

 - Developed 2 university web solutions for summer courses and residences.
 - Built WCF services for PEPPOL project funded by European Commission.
 - Built an app commercialised on mailedi.dk to send business documents.
 - Built rule engine modules for an internal search engine.

- Programmer & Part-Time Tutor

University of Mauritius

Nov 2005 – Nov 2006

 - Programmed the I-Learn platform for university students.
 - Trained IC3 instructors reaching 400,000 Mauritian.
 - Taught IT courses to undergraduate students.
 - Lectured an IT proficiency course to university staffs.

Conference Speaker

- Exploring AI Agents: From Fundamentals to Implementation

2025

Introducing the fundamentals of AI agents using N8N, showing how they operate and demoing a production use case.
- Navigating the AI Landscape

2023

Shared practical experience with the OpenAI API and running large language models locally.
- Build and Program an Interactive Robot

2021

Demonstrated building a robot from scratch with live programming. Watch the session: <https://www.youtube.com/watch?v=QHnxsFYhUtk>
- How to Program a Robot Arm

2019

Built and programmed a 3D-printed robotic arm with a screen interface, explaining servo control (swivel, lower, mid, upper, and gripper) for coordinated movement.

Delphine Racoupeau
Head of Product, Ringier SA

"I've had the pleasure of working with Nisha for over 4 years at Ringier. She always prioritizes strong relationships with her colleagues, which I believe has been key to the success of the projects she led. I could always rely on her for brainstorming and honest opinions. I've seen her step out of her comfort zone and grow, and it's been truly inspiring to work alongside her."
Sep 2024, Delphine was Nisha's colleague at Ringier

Sandeep Ramgolam
Senior Frontend Dev, Ringier SA

"I've been part of Nisha's team during my time at Ringier and we worked on a major project for the company. Nisha led a team of engineers and designers while managing requirements from users and clients. It has always been a pleasure to work alongside her and I would say her people skills are extremely valuable to have within a tech organization. We often meet in tech events as she's also active in the local communities"
Aug 2024, Sandeep was Nisha's colleague at Ringier
